

Physical Science Syllabus
Mr. Moreno

Course Description:

We will cover physical science in this course. Taking prior knowledge and expanding on these topics.

1. Motion and forces
2. Energy
3. Waves
4. Matter
5. Reactions
6. Applications of chemistry

Grading:

Students will be graded on their understanding and completion of class assignment, quizzes, and tests. Classwork - 30%, Test/Quiz/Labs - 50%, Semester Test - 20%.

Classwork:

Students will be informed of the due date for an assignment as the time it is given. All work must be completed in pencil and all work must be shown. All assignments must contain student name, date and class period.

Quizzes & Tests:

Quizzes will not always be announced. All tests will be announced in advance. A practice test will be given one to two days in advance to help students review and prepare.

Participation:

Students will be expected to participate daily in class. This includes but is not limited to, asking/answering questions about lessons and cooperating with classmates during Labs .

Absences:

It is the responsibility of the student to obtain the assignment. Absent students will have as many days as their absence to make up assignments missed.

School Supply:

needed for this class will be a 1" 3 ring binder and a writing utensil
